

Symposium “*New Therapies for Inflammation*” September 24, 2010

Italian Institute of Technology, via Morego 30, 16163 Genova (Italy)

8.15 – 08.50	Registration and coffee
8.50 – 09.00	Welcome address <i>Daniele Piomelli, Director, Drug Discovery and Development Unit</i>
9.00 – 10.00	Functional Metabolomics in Inflammation-Resolution yields New Mediators and Leads for Therapeutics <i>Charlie Serhan, Harvard Medical School</i>
10.00 – 10.30	From Spices to Pain Treatment <i>Pierangelo Geppetti, Università degli Studi di Firenze</i>
10.30 – 11.00	Anti-inflammatory activities of the heme oxygenase pathway <i>Roberto Motterlini, Senior Scientist, Drug Discovery and Development, IIT</i>
11.00 – 11.30	Coffee break
11.30 – 12.00	NAAA inhibitors as anti-inflammatory and analgesic agents <i>Daniele Piomelli, Director, Drug Discovery and Development Unit, IIT</i>
12.00 – 12.20	Clock factors and immune function: new targets in inflammation <i>Benedetto Grimaldi, University of California Irvine</i>
12.20 – 12.40	A structure-based strategy for generating multi-target drugs: treating pain with a single compound acting synergistically on more than one protein <i>Angelo Favia, Post-Doc, Drug Discovery and Development Unit, IIT</i>
12.40 – 13.00	Presentazione (10') + discussione (10') <i>Giuseppe D'Agostino,</i>
13.00 – 15.00	Lunch and Poster session
15.00 – 15.30	Histone deacetylase inhibitors and inflammatory diseases <i>Antonello Mai,</i>
15.30 – 16.30	Keynote closing lecture <i>Lawrence Marnett, Vanderbilt University</i>
16.30 – 16.45	Closing remarks <i>Daniele Piomelli, Director, Drug Discovery and Development Unit, IIT</i>
