

4th Focused Meeting on Cell Signalling

Local Organizers: John Challiss, Andrew Tobin and Gary Willars

This 2-day conference brings together an exciting list of international speakers, talks chosen from the submitted abstracts and a dynamic Poster Session. This residential conference offers many opportunities to meet new people with common research interests in a friendly and social environment. It follows on from previous, highly successful BPS Cell Signalling meetings held at the same venue in 2005, 2007 and 2009.

Registration fees

Registration and Abstract submission will open in January 2012

Up to 30 March

Members £175 | non-members £250 |
Students (members & non-members) £100

After 30 March

Members £225 | non-members £300 |
Students (members & non-members) £150

The registration fee includes en suite campus accommodation (for the evening of Monday 23 April), the Conference Dinner, lunches (Monday and Tuesday), coffee, and access to all sessions.

For non-residential rates and/or additional accommodation, please view the BPS Website in November 2011,

If you have any questions, or would like to register your interest, please contact the BPS office:
